

G. Pulla Reddy Degree & P.G. College

Mehdipatnam, Hyderabad.

Field Trip to NGRI

The Department of Physics Organized a Field trip to CSIR-NGRI on 7th April 2022 for B.Sc. (Physics) and M.Sc. (Physics) students.

National Geophysical Research Institute is established in 1961 under CSIR located in Habsiguda, Hyderabad. It is supported by more than 200 scientists and other technical staff. The research areas are Ground water, Earthquake hazard assessment, Geophysical instrument development & Geothermal exploration.

A group of thirty seven students & five faculty members visited NGRI. Rock Museum, Geochemistry lab, Ground water research block, Seismology block are visited in NGRI.

The Scientists explained the working of fully automated X-Ray Fluorescence Spectrometer (XRF), Inductively coupled Plasma Mass Spectrometer. The students were excited to see the model of AEM- ground water.

The Professors, Scientists and Research Scholars of NGRI shared their knowledge with the students. The trip was informative and exciting.
