EDUCATIONAL VISIT TO NIRDPR-RTP

Department of Electronics Organized Educational field trip to National Institute of Rural Development & Panchayath Raj (NIRDPR-RTP) on 19/12/22 for I, II & III B.Sc(Electronics) Students. Total 57 students participated in this Educational field trip with an aim to visit the rural Technology park which is a platform for Technology Demonstration & Disseminations Technology Transfer.

Trip Objective:-

The Objective of the trip was to get to know the

- Waste and Sanitations Technologies
- Waste management Technologies
- Organic farming Technologies
- Sustainable Energy Solutions such as solar and Hybrid Technology solutions lighting and cooling and Dehydration units and Technology unit.

Field Observations:-

Dr PK Pranab Kumar Ghosh, has explained in detail about the NIRD PR – RTP and its projects.

The Visit taught students about the sustainable technology and how we can use them.

The Conductiveness of the environment of the NIRDPR – RTP helped us learn more on Innovations and appropriate Technologies which could help students to apply in future.

Conclusion:-

It can be concluded that the trip was successful and believed our objective was achieved. We learned something new and beneficial for us.
